Dear Pastors and Churches and Praying Friends,

July Youth Camp

We have some difficulties about how to make the right time for our youth Camp. The reason is that because the ministry of education do not have the synchronized time of holiday for each level. The university had a different time of holiday for the elementary, high school and university. Despite all the challenges, we were able to push through our planned Youth Camp in the 3rd week of July. We have 52 Young people in attendance and we ended with 2 believers baptism.

Baucau update

We are on the finishing touches of the school project. Thank you so much for your prayers and generosity. Baucau is 65 km away from our base in Manatuto and I have to travel back and forth everyday to oversee it. Our target is that the school can start to operate on January next year. There are already two families that we are ministering there. I have started to disciple our first baptized believer. Please pray that Carlos that he will grow spiritually and can be a good leader.

Health issues

In the last two weeks most of our members have had enfluenza. I have been coughing lately, so bad that even taking some expensive medicine still make it difficult to shake off. The haze had been so bad in the last few days. There is a lot of burning everywhere and is visible in the horizon that the air quality shifts from bad to worst. We've been so craving for the rain but the earlier forecast of the rainy season is late on the first quarter next year.
